

## Daintree Eco Lodge & Spa

- Tropical North Queensland, Australia

Want to feel in complete harmony with nature? At Daintree Eco Lodge & Spa, you'll enjoy quality accommodation, cuisine with a native twist, authentic Aboriginal culture and the world-acclaimed Daintree Wellness Spa on a true rainforest holiday.

Set in 12 hectares of World Heritage-listed rainforest, and only 40 minutes from Port Douglas, Daintree Eco Lodge has been called the most pampering eco lodge in the world and a truly experiential destination. With only 15 tree-houses nestled in lush vegetation, guests can view the rainforest from floor to canopy. The environmentally sensitive accommodation is designed to accentuate the sounds, aromas and textures of the local flora and fauna.

Ten spa tree-houses have a jacuzzi set into a screened balcony. Both standard and spa tree-houses feature air-conditioning and ceiling fans.

Julaymba Restaurant & Gallery serves innovative Australian cuisine with a native twist. You can learn more about the traditions of the Kuku Yalanji people on a guided walk by a local or in art and culture workshops.

Pamper yourself with unique Aboriginal inspired healing massages and spa treatments. Daintree Essentials are native and organic face and body products created from the source. A unique setting for a treatment is the Waterfall Spa Deck cantilevered over the rainforest valley at the base of the property's waterfall.

The internationally acclaimed lodge's most recent award was 2010 - Best Luxury Eco Tourism – as voted by Luxury Travel Magazine.
