

Kunming Brilliant Resort & Spa - China

The dedicated spa resort of Kunming Brilliant Resort & Spa sits on the shores of Yang Zong Lake in Yunnan province in southwest China. With thatched-roof villa retreats, Zen gardens and an astounding number of outdoor volcanic hot springs, this is the place for restorative spa treatments and serene lake views.

China's top hot spring hotel has 25 natural healing springs dotted among woods and flowers. Take a lakeside yoga or tai chi lesson, then head to the Brilliant Spa with its ancient, oil-based Chinese five elements therapy and experience the health benefits of Puer tea at the tea club.

Nearby you'll find the Spring City Golf Course, freshwater fishing, tennis courts and a jogging track too.

It's a heavenly mix of Buddhist culture with luxury amenities. Accommodation comprises 17 one bedroom hillside Pool Villas overlooking the lake, two double room Lakeview Pool Villas (with the addition of a garden, beach area and spa room), and the ultimate in luxury - the Presidential Villa. Four master bedrooms, a twin bedroom, a large swimming pool and hot spring pool, a living room, a dining room, a kitchen, a spa room, and a garden with a beach area complete this exceptional offering. All accommodation has a 24-hour butler service.

There is dining room and in-villa dining with Italian, Western and Chinese menu options, as well as four meeting rooms.
