

Lagen Island Resort - Philippines

It is the scenic landscape, crystal clear waters and relative isolation that draw travellers to the El Nido group of 45 islands and islets about 420 kilometres south west of Manila. Feel a part of nature as the sounds of the sea relax you at Lagen Island Resort, a top destination for scuba diving and many of life's pleasures.

The property has 50 rooms with four accommodation types - water cottages built on stilts above a cove, beachfront cottages, and forest rooms and suites. All accommodation at Lagen Island Resort have private verandas that, depending on the room, affords guests views of the cove, the cliffs, the bay or the sunset.

Each cottage, room and suite has floors and furniture made of antique wood from old Filipino houses and comes with air-conditioning, bath amenities, hair dryer, mini bar and stereo system with CD player.

The resort offers an endless range of activities, from adventure sports to more leisurely pursuits like nature appreciation, all arranged according to your preferences by guest activity coordinators to help you plan your stay.

Complete your holiday in El Nido with a visit to the Big and Small Lagoons at Miniloc Island. After kayaking from the resort, or being brought by *banca* (a boat with bamboo outriggers), explore one of nature's wonders at your leisure. The more adventurous can even do some rock climbing.

Or just bask in the sun for as long as you want in complete privacy. Guests can choose from more than 100 private beach locations readily accessible from the resort.
