

## Zeavola Resort - Koh Phi Phi, Krabi, Thailand

The exotic plant *Scaevola taccada*, with its unusual white fan-flowers, better known in Thai as *Rak Ta-lay* (love of the sea), lends its name to Zeavola Resort. The resort has redefined luxury in southern Thailand, where it is situated on the pearl-like Koh Phi Phi, one of the most beautiful islands in the Andaman Sea.

Blessed with unparalleled ocean views in one of the most relaxing locations in Southeast Asia, the tranquil 52 suites and villas, including Village Suite, Garden Suite, Beachfront Suite and Pool Villa Suite, celebrate the best elements of Thai life from a bygone era.

The resort's interiors draw inspiration from the country's villages and contemporary simplicity and style. Awe-inspiring tropical gardens enhance one of the most authentic Thai resort experiences while materials like teak and Thai silks are utilized to see that comfort is always paramount. The bathrooms, for example, have both traditional and modern outdoor rain showers.

Time is best spent in utter relaxation from the stresses of modern living on the silver shores of this perfect retreat, although there is a range of activities on offer. These include spa massages, exploring the pristine nearby reefs with the PADI accredited dive team at the Zann Zanook centre or sampling some of Thailand's finest cuisine at Baxil Restaurant. There is also an outdoor swimming pool.

Zeavola Resort encourages a sense of wellbeing from dawn to dusk.
